KNOX HORTICULTURE DISCOUNTS

EARNED VOLUME DISCOUNTS

The Knox Horticulture system establishes a discount for existing customers based on the total number of plug trays purchased plus the total number of trays of rooted liners in our Root & Sell programs for vegetative annuals, tissue cultures, geraniums and poinsettias during the prior calendar year (garden mums are not included). This total is calculated looking at all orders for a given customer from all brokers.

Once the current year's volume exceeds the prior year's volume, the Earned Volume Discount on new orders increases. Orders that have already been billed at earlier volumes will not be re-billed.

The calculated Earned Volume Discount is assigned by our system to all new orders for plugs and rooted liners in our Root & Sell programs for vegetative annuals and poinsettias. Garden Mum orders are assigned Earned Volume Discounts independently and are based on prior year's orders only for Garden Mums.

ASSIGNED VOLUME DISCOUNTS

Knox Horticulture management may from time to time assign a specific volume discount to a given customer. This Assigned Volume Discount will apply only to orders for a specific program (plugs, vegetative annuals, or poinsettias), and will apply only to orders from a specific broker. An Assigned Volume Discount remains in place until changed by management.

ORDER CANCELLATIONS

Cancellations must be received no later than Wednesday the week prior to shipping.

Cancellations can only be honored without charge if production has not been started.

The broker is responsible for reselling any canceled items that have been produced.

If produced items are not resold within one week after the original shipment date, unsold items will be dumped, and the broker will be invoiced for unsold items.

Items resold will be invoiced to the new customer at the new customer's volume level.

CONFIRMATIONS

Knox Horticulture's Order Confirmations (acknowledgments) and Order Changes will be forwarded automatically to broker's office.

Upon receipt of Knox Horticulture's Order Confirmations and Order Changes, **it is the broker's responsibility** to review all information for accuracy.

If any discrepancies are found, please notify Knox Horticulture immediately.
